

**DENATURING COMMON AIRBORNE ALLERGENS IN YOUR HOME**

**ENHANCING YOUR PROFIT MARGIN ON EVERY HOME**

Your local **OdorPros™** affiliate is also an expert at the application of an all-natural protective coating that may be applied to all surfaces within a newly purchased home. This biostatic coating offers surface enhancements on so many levels:

- Being biostatic, it is an all-natural antimicrobial coating that inhibits the growth of ALL microbes,
- Being a biopolymer, it adds a level of 'clean-ability' to all walls, trim, shower stalls, tub linings and even soft surfaces like curtains and carpets.
- Being hypoallergenic, it can also assist home-buyers to adjust to new environments without excessive allergy triggers.

**THE EXPERTS IN ELIMINATING UNWANTED ODORS... ANY ODOR... PERIOD.**

**PRODUCTS FOR HOME & AUTO**

We pride ourselves on having one of the most extensive line of products for both your home and your car, and each product removes, not covers odors.

# NEVER LET HOUSE ODOR ROB YOU OF A GREAT SALE!

## REMOVING LINGERING SMOKE ODORS

Eliminating all trace of past smokers can be a big job, but your local **OdorPros™** affiliate it up to the task. The worst that can be done is an attempt to cover the build-up of soot, tar and nicotine on the walls, ceiling and trim ahead of our proprietary, deep-deodorizing **Soil Break™** with  $ClO_2$ , followed by a whole-house gaseous deodorization treatment is the only way to be absolutely certain that the past smells of tobacco or cannabis will not return on the first humid day to ruin your sale.

## All DIY: PROFESSIONAL ITEMS

Each product is a safer version of exactly what we use as Odor Removal Pros, and when directions are followed, may be used safely.

## ELIMINATING THE STAINS & ODORS OF SURFACE MOLD & MILDEW

Once a home is emptied of its contents, and closets, cupboards and basements have been exposed to the light, the telltale signs of dampness - mildew and mold growth will appear, exposing the faint odors of mustiness that were obvious as you made your first walk-through of an older home. Our proven methods of destroying the mold spores at their roots, and removing the stains from the surface may save you a great deal of future woes in the final price negotiations.

## Do-It-Yourself Odor & Stain Removal OdorPros Full Room or Auto Deodorizer

## REMOVING RESIDUAL PET ODORS

Pets are wonderful and they can add a great deal to a home, but sometimes not all that they add brings value to a home you are trying to sell. Your local **OdorPros™** affiliate understands how to rid the home you wish to list from the odors associated with pet urine, feces or just dander. Our substrate analysis of the home, followed by both a targeted cleaning and whole-house gaseous deodorization, will rid the home of all trace of the previous owner's pets and pet problems.

## We Offer An Array of Odor Removal Products
